SUMMARY

Experienced in C#, ASP.NET, MVC, .NET Core, Web API, Entity Framework, SQL Server, and Vue.js/Angular with 3+ years as a .NET Full Stack Developer. Skilled in building scalable web applications and RESTful APIs, with hands-on experience in AWS S3 and Azure DevOps.

EXPERIENCE

Software Developer | Brandintelle Services Private Limited | Mumbai | October 2025 - Present

- Developed responsive **Angular components** integrated with **.NET Core APIs and SQL Server**.
- Optimized **REST APIs, SAP integrations, and cloud storage workflows** for performance and reliability.
- Automated financial workflows with **partial invoicing, approval-based adjustments, and month/year-end provisioning** to enhance accuracy, compliance, and efficiency.

Dot Net Full Stack Developer | Tyger Capital | Mumbai | September 2022 - October 2025

- Architected, developed, and deployed a **.NET-based Product Lead Management System** using **C#, ASP.NET Web API, .NET MVC, .NET CORE, Vue.js, JAVASCRIPT, AJAX, JQUERY, SQL Server, and Entity Framework**, ensuring **scalability, performance, and data integrity**.
- Collaborated within **Agile Scrum teams** to design **modular, scalable architecture**, improving **application efficiency by 20%** and reducing **downtime by 30%** through continuous integration and code optimization.
- Analyzed client requirements, prepared **technical documentation**, and aligned **deliverables** to accelerate **project initiation by 25%**.
- Integrated **E-sign and E-Nach APIs** for **digital document signing and automated payments**, improving **compliance, security, and user experience**.
- Enhanced document handling by integrating **Omnidocs File Storage API**, boosting **system performance by 30%** and enabling **efficient file management workflows**.

PROJECT

Enterprise Work Completion & Financial Provisioning System | Brandintelle Services Private Limited | October 2025 - Present

- **Project Overview:** Designed and implemented a **PO-based Work Completion & Billing Workflow** with **partial invoicing, validation, rejection handling, approval-based modifications**, and integrated **month-end/year-end financial provisioning controls** to ensure accurate reporting, liability management, and audit compliance.
- Integrated **AWS S3 and Azure Blob Storage** for **secure, scalable file storage and management**.
- Built **.NET Core 8 REST APIs**, Angular UI, optimized SQL Server, integrated AWS S3, and used Azure DevOps for CI/CD.
- Automated **SAP invoice posting** to streamline accounting, liability tracking, and fund management.

Dynamic Product Lead Management System | Tyger Capital | September 2022 - October 2025

- **Project Overview:** Developed and deployed a **scalable Product Lead Management System** for a **Non-Banking Financial Company (NBFC)**, streamlining **loan origination and processing** for **farm equipment, commercial vehicles, housing, and MSMEs**. Integrated a specialized **Top-Up Loan module** to enhance **lead tracking, workflow automation, and loan disbursement efficiency**, using a modern **.NET technology stack**.
- **Led full lifecycle development** of the **Top-Up Loan module**, including **analysis, design, coding, testing, and deployment** using **Agile**.
- Integrated **Omnidocs API** to enhance **document management**, boosting **performance and storage efficiency** by 30%.
- Developed **responsive user interfaces** using **Vue.js, jQuery, AJAX, and HTML/CSS**, delivering an **intuitive, mobile-friendly frontend experience**.
- Built **backend APIs** using **C#, ASP.NET, .NET CORE, Entity Framework, and LINQ** for **secure and scalable CRUD operations**.
- Integrated **E-sign, E-Nach, and Finnone** to enable **secure digital workflows, e-signatures, and auto-payments** for disbursement processing.
- Integrated **Finnone Loan Management API**, automating **loan disbursement processes** and reducing **manual processing time by 40%**.

SKILLS

Front End: Angular, Vue Js, HTML, CSS, AJAX, Javascript, jQuery

Backend: C#,ASP.NET MVC,ASP.NET Web API,Micro Services, Web Services, .NET CORE , Dapper ,LINQ, Entity Framework, AWS S3, Azure Blob Storage

Data: Microsoft SQL Server

Tools: Visual Studio, VS Code, Git, GitHub Desktop, Postman, Jira, IIS, Azure Devops
